### REASON BELIEVE JAPAN QUITS ALL OPPOSITION

(By Associated Press)  
WASHINGTON, D. C., Dec. 28.—Preparations on the part of the United States government for negotiation of a treaty with Japan defining property and other rights of Japanese nationals in the United States, has been broadened so as to include consultation with leaders in Congress.

Representative Kahn, of California, after a conference at the state department with Ambassador Morris, said he had reason to believe Japan will withdraw opposition to the California law as ratified at the last November election, prohibiting Japanese from acquiring title to real estate. Kahn added he had called a meeting of house members from his state for tomorrow to discuss the proposal that the California legislature be asked to enact a substitute statute which would prohibit any alien from acquiring land in California.

State department officers stated that Representative Kahn of California, who conferred yesterday with Ambassador Morris, was mistaken in the impression that Japan has withdrawn its opposition to the California anti-Japanese land law, which was adopted in the November elections in that state. Officials said the abandonment of the position Japan had assumed, was not to be expected at least until after the close of negotiations now in progress.

### CLUBS RAIDED AND MEMBERS ARRESTED

(By Associated Press)  
HURLEY, Wis., Dec. 28.—Forty-eight federal prohibition agents from Chicago surprised 35 open saloons here this morning, making 47 arrests and seizing quantities of liquor of all sorts.

The federal agents were armed, but not a shot was fired during the first hour of operations.

The raid followed a wild night, during which liquor had been sold at bargain rates, ranging from 35 cents for moonshine whiskey to 75 cents for well-known brands. It was said.

Among those arrested were lumberjacks, too paralyzed from liquor to realize what was happening.

The whole district in this part of the north woods has been regarded by dry officials as a law-defying community. Reports that dance halls, saloons and gambling rooms flourished openly, each selling any kind of liquor obtainable from whiskey to Italian wine, have been numerous. Opposition to any encroachment from the outside took definite form after the October ambush, when federal agents seized \$5,000 of liquor. One man was killed in the ambush.

It was asserted that the bootleggers were organized and issued a def that the first prohibitionist to show himself in Hurley would be shot. They vowed it was said, to keep Hurley "a damn town for real men."

It was later announced that about 70 persons were arrested and 37 saloons searched.
